

Fabric Heat Shrink Tubing

Kable Kontrol® 2:1 Fabric Heat Shrink Tubing is a versatile and durable solution made from a blend of polyester and polyolefin filaments. The 2:1 shrink ratio ensures a tight and secure fit when heated. The braided design offers exceptional flexibility and softness, making it easy to install around hoses and irregular surfaces. This style of Heat Shrink Tubing works great for abrasive applications in automotive, aerospace & defense manufacturing, electrical, and electronic industries.

- **Material:** Polyester, Polyolefin Filaments
- **Chemical, Oil, Abrasion, and Flame Retardant**
- **RoHS Compliant**

2:1 Fabric Heat Shrink Tubing

SKU	Inside Diameter	Color	Sizing (ft)
FHST21-75-BK	3/4"	Bk	25' 100'
FHST21-118-BK-25	1-3/16"	Bk	25' 100'
FHST21-150-BK-25	1-1/2"	Bk	25' 100'
FHST21-200-BK-25	2"	Bk	25' 100'
FHST21-237-BK-25	2-3/8"	Bk	25' 100'

Operating Temperature Range –40°F to 257°F
