

Teflon (PTFE) Tubing [2:1]

Kable Kontrol® Teflon (PTFE) Heat Shrink Tubing offers premium insulation and protection for applications exposed to extreme temperatures and aggressive chemicals. This material is known for its excellent resistance to corrosion and high voltage insulation in demanding environments. Common industries for this product are chemical processing, aerospace, automotive, mechanical, transformer, and communication systems.

- **Material:** Polytetrafluorethylene (Teflon)
- **Operating Temperature Range:** –85°F to 392°F
- **Highly chemical and corrosion resistant**
- **Rated for 600V**

SKU	Inside Diameter	Color	Sizing (ft)
HS2-PTFE-012-4-CL	1/8"	Cl	4'
HS2-PTFE-018-4-CL	3/16"	Cl	4'
HS2-PTFE-025-4-CL	1/4"	Cl	4'
HS2-PTFE-031-4-CL	5/16"	Cl	4'
