- Operating Temps: -49°F to 248°F (-45°C to 120°C)
- Melt Temp: 410°F | 210°C
- Resists Common Chemicals, Gasoline, Salt, & Solvents

Kable Kontrol® Tuff-Weave® Nylon Hose Sleevings is designed to provide excellent abrasion protection, this nylon textile sleeve is used to prevent wear on hydraulic/oil lines, rubber hoses, pipes, and cabling. Thick and strong strands with a tight woven construction give a high degree of burst resistance while still maintaining decent flexibility. Nylon protective hose sleeve is resistant to abrasion, cuts, heat, and UV/ Ozone deterioration.

SKU	Inside Diameter	Color	Sizing (ft)
