

# Expandable PET Sleevings

- **Material:** Polyethylene Terephthalate (PET)
- **VW-1 Rated Flammability**
- **UL Temperature Approved**
- **FMVSS 302 Approved**
- **Operating Temperature:** -70°C to 125°C.
- **Resistant to Gasoline, Chemicals & Cleaning Solvents**

**Kable Kontrol® Expandable PET Sleevings** is economically priced without compromising quality. Made from halogen-free and flame retardant polyester, this sleeving is suitable for all general covering of wires and cables. Expandable braided PET offers a high expansion ratio and excellent mechanical abrasion resistance. The nature of this sleeving is expandable and offers a great deal of versatility to suit your bundling requirements that may vary in diameter. This product is popularly used in automotive, manufacturing, and even homes to cover those unsightly wires and cables. It is accompanied by quick and easy installation, by simply inserting your wires and cables.

| SKU   | Inside Diameter | Color                  | Sizing (ft)                 |
|-------|-----------------|------------------------|-----------------------------|
| FW013 | 1/8"            | Bk                     | 25'  50'  100'  225'  1000' |
