

Wrap Around PET Sleevings

Kable Kontrol® Wrap-Around Cable Sleevings is a perfect solution to protect wires, cables, wire harnesses where ease of installation is paramount. With a self-closing 25% overlap, this flexible cable sleeve secures to itself, eliminating the need to secure the sleeve opening with any other method. This product is a semi-rigid with self-closing properties so that the sleeve can accommodate a range of bundle sizes. This sleeving is ideal for environments where removal and re-install is common. It can bend with the wire harness without splitting. It is rated to 257°F and ensures no heat or moisture trapping due to its surface.

- **Material:** Polyethylene Terephthalate (PET)
- **UL Temperature Approved**
- **UL VW-1 Approved (Horizontal)**
- **REACH and RoHS Compliant**
- **Halogen Free**
- **Operating Temperature:** -94°F to 257°F.
