

SPIRAL WRAP

Spiral wrap is a versatile and durable solution for bundling and protecting cables and wires while maintaining flexibility and easy access. Its spiral design allows for quick installation and the ability to branch off cables at any point, making it ideal for dynamic or complex wiring setups.

SPW

All Kable Kontrol® Spiral Wraps are manufactured to the highest quality standard. This is to ensure the highest quality of products for our customers.

Spiral Wrap

HGPW

Commonly used in industrial, automotive, and office applications, spiral wrap safeguards cables from abrasion, tangling, and wear while keeping them organized. Available in various sizes and materials, it provides a practical and efficient cable management solution for a wide range of environments.

Spiral Wraps are available in multiple colors and materials to accurately fit your needs.

Vortex Spiral Wrap

- UL Flame Rating 94V-2
- UV Resistant
- Manufactured from Polyethylene
- Will Not lose Coil Strength With Repeated Flexing
- Easily Removed & Re-Applied
- Operating Temperature Range: -103°F - 215°F (-75°C - 101°C)

Kable Kontrol® Vortex Spiral Wrap is made from durable Polyethylene, and easily slides over runs of cables and hoses, allowing them to retain their necessary flexibility. Despite frequent bending, flexing, and installing, each length of Polyethylene Spiral Cable Wrap will maintain its strength and integrity. Cable and hose break-outs are also accommodated by the numerous slits along with the spiral hose wrap tubing. This product has simple installation and removal.
